

## **ARTC 50% Income Tax Exclusion Success!**

Thanks to members of the Association of Retired Teachers (ARTC), the advocacy of our lobbyists, and CT Legislators, **all CT retired teachers will finally realize in this biennium budget the promised 50% State Income Tax exclusion.** ARTC was the **only** retired teacher organization that submitted testimony petitioning for the exclusion in this budget along with the many member messages of support to the Finance, Revenue and Bonding Committee. This 50% tax exclusion will make the teaching profession in our State more equitable and attractive.

Please share with all your teacher friends the good news and be sure to tell them that joining ARTC gets results that benefit all retired teachers. Retired teachers working together can make a difference.
